

SVI Girl Guide Community Connections Challenge Overview

Objective of the challenge:

This challenge has our members working to try something new or take what you are already doing one step further to strengthen existing relationships and create opportunities for our members to become engaged with our larger non-Guiding community.

The challenge is organized into four categories, with ideas and activities for individuals, Units, Districts or Guiders working with girls to assist in easily making connections. Some of the activities are directed at adults and with a little modification can be completed by a Unit.

We have also including:

- where the challenges fits into our program levels
- unit passports for girls
- unit record sheet
